

NetSol signs agreement to sell its software

LAHORE: NetSol Technologies Limited has signed a multi-million dollar agreement with one of the largest leasing companies in Saudi Arabia to sell its software LeaseSoft, an end-to-end solution for the leasing and finance industry.

According to a press statement issued on Tuesday, NetSol will provide license and implement LeaseSoft Retail Suite comprising of Credit Application Processing System (CAP) and Contract Management System (CMS).

NetSol has already launched its flagship product LeaseSoft in Asia successfully and is taking Middle East as another important region to get in and automate its leasing and finance industry. **STAFF REPORT**
